(Special telegram to the Dispatch.)

WARM SPRINGS, Va., October 26.—In spite of the failure of Lewis E. Wood to secure the support of Alliance before the Democratic convention he comes out in a card to-day announcing himself as Independent Alliance Democratic candidate for the Legislature. His appearance in the field, far from being a service of fear to the Democrats, encourages them. His opposition to the regular nominee will develop his strength and bring out the vote. Mr. Withrow, who will represent us in the next Legislature, was here in conference with the county chairman this morning and then left for Highland, where he will for u few days make an active canvass, A GOOD MAJORITY.

Alleghany will also roll up a good majority as well as Highland. Mahone has been moving Heaven and earth to bring out some candidate against Withrow. Wood's appearance to-day as Independent is the mouse which this mountain brought forth by its labor.

ABOUT DRINKING-WATER

Large Cities Investigating Their Water Supply--Discovery of Disease Germs--Smaller Cities Also in Danger.

Cities Also in Danger.

New York and other cities are new agitating the very serious question of their water supply. Investigation has brought to light the fact that impure matters, in spite of expensive attempts at prevention, will find their way into the streams from which the water supply is drawn. It has been thought for years that a stream running in the open air will chemic sited partly by settling of the impure matter and partly by settling of the impure at the proper authorities that no such process of self-partification takes place.

As in most places the water supply is drawn from streams which pass through land where cattle, horses, or sheep graze, a very general movement has taken place throughout the United States, towards the purification of water for drinking purposes in the home itself. The most popular and effective method is to mix a little pare whiskey with the water; filtration it seems, does not get rid of the presence of poisonous nitrates. It is to be impressed on all those who take this method of proserving their health that the whiskey need must be pure. Durly's Pure Malt is highly recommended by leading doctres and scientists as being the purest medicinal whiskey on the market. Blues, headaches, nervousness, liability to sore throat, peculiar pains in the back, and many other small but troublescome life frequently have their origin in impure drinking, water. The mixing of a little Durly's Pure Malt Whiskey with drinking-water will render it incapable of producing these or even the worse effects of typhoid and other miliganant fevers of the same type. By the by it will be well to remember when you call at your druggist's or grocer's for Durl

It has been agreed the leading scientists and physicians of the day that Duffy's Pure Mait Whiskey is absolutely pure. The proper use of it will strengthen the nerves blood, and body. It is not a ceverage, but is designed for medicinal use. It stimulates all the faculties of the body and mind, adds energy and strength, and builds up waste tissue. It may be obtained from your druggist or greecer. In justice to yourself, see that you obtain the genuin Duffy's Pure Mait Whiskey, and do not be satisfied with any substitute which may be offered at just as good.

Colds Remarkably Prevalent --- Will the Grip Return?--- Dangers of Pneumonia.

Preumonia.

Have you noticed the unusual number of colds possessed by your acquaintances this year? There seems to be no particular reason why the fall of this year should be more trying than usual, but nevertheless it is a fact. Those who know something of these matters say that this extraordinary prevalence of colds is the foreuner of another visitation of the grip. Whether it may turn out so or not, a thing every one should do is to get rid of a cold as soon as possible on account of the danger to which a person with a "little cold" is exposed. Preumonia nobody wishes to face, and it is no exaggeration to state that 80 per cent. of deaths from this cause could have been averted if the colds out of which they grew had been cured. By far the best method of ridding oneself of a cold is to take a little pure stimulant in water and keep warm after having done so. The great-act care and prompt measures should be taken at the slightest sign of the approach of pneumonia. If you have a tickling in the throat, tightness of the cheet, pain in the head, a chilly feeling, or pains throughout the body, immediately nee some pure stimulant to promote the circulation and avert the catastrophe. It should be particularly borne in mind that to be of the required value, the simulant (whiskey preferably) must be pure, and Duffy's Pure Mailt Whiskey, which can be obtained of your druggist or grocer, meets the requirements. It is standard and reliance, and the fact that it has received the endorsements of the leading scientists and physicians of the present day is the best guarantee of its usefulness as a medicine, hasist upon having it, and do not allow the salesman to sell you a substitute which he may recommend as "just as good." There is no other medicinal whiskey which equals Duffy's Pure Mail in purity and excellence

A SET OF THE

Works of Charles Dickens IN TWELVE VOLUMES,

Physicians WEEKLY DISPATC

FOR A WHOLE YEAR

FOR ONLY \$1.60

Wishing to largely increase the circulation of the WEEKLY DISPATCH during the next sixmonths we have made arrangements with a New York publishing house whereby we are enabled to offer as a premium to our subscribers a SET OF THE WORKS OF CHARLES DICKENS, IN TWELVE VOLUMES, paper covers, with a year's subscription to this paper, for only \$1.60. This great offer to subscribers eclipses any ever heretofore made. Charles Dickens was the greatest novelist who ever lived. No author before or since his time has won the fame that he achieved, and his works are even more popular to-day than during his life. Read the testimonials and see what you think of it, they are sent to any address free.
